

6th Meeting of the INTOSAI Professional Standards Committee Coordination Group

Start date: June 17, 2009 9:00 a.m.

End date: June 18, 2009 6:00 p.m.

Place: Former noble lounge of the TCU

Description:

On the 17th and 18th of June, 2009, the TCU will host the 6th meeting of the INTOSAI Professional Standards Committee Coordination Group.

The Committee reunites seven sub-committees in modalities of auditing, responsible for researching of its respective topics, development of technical standards for disclosure among the Intosai members, and dissemination of knowledge within the Organization.

These are the sub-committee of financial auditing guidelines, the sub-committee of conformity auditing, the sub-committee of performance auditing, the sub-committee of internal control standards, the sub-committee of accounting and reports, the *ad hoc* group for transparency and account rendering, and the *ad hoc* group for auditing quality control.

The TCU leads the sub-committee for performance auditing.

Therefore, the Court integrates the Professional Standards Committee Coordination Group, along with the other SAI's that lead committees, and with the SAI that lead the Committee, currently the Auditing-General Office of Denmark.

The Coordination Group meets annually to discuss the progress of the work performed by each sub-committee, to Exchange work experiences and technical knowledge, as well as to debate and approve drafts of technical standards to be submitted to Intosai's Board of Directors.
